

GUEST INSTRUCTORS IN KIRA'S CLASS...WHY?

1. Kira firmly believes that adding the diversity of opening yourself up to study with other teachers can enhance and accelerate your education, greatly. In that vein, Kira often invites instructors that she herself would like to spend time with, to teach her students during her Monday and/or Wednesday class times. When this happens, and the teacher is of interest to you, you may drop in for either or both levels!!
** It is not like a workshop or specialty class**. These teachers are coming in and teaching a regular class at the ability level stated (beginner or intermediate), BUT what is special about it is that they have a flair all their own and will share something that is their forte', that we can all benefit from.
2. She also believes a key component of the successful growth of her students is that she keeps pursuing high level education and growth and travels OFTEN to immerse herself in dance education around the country and the world. She has traveled all over the US to take workshops, private instruction, see shows and seek valuable mentoring and has studied the dance in Egypt twice, Australia, New Zealand, Hawaii, France and England.
3. Kira is also growing and advancing her students nurturing their pursuit of this art form by training them to teach and providing opportunities to do so. As a student excels or develops forte's in the dance, she will provide them the chance to share these accomplishments with their classmates. Everyone benefits!! We all have dance gifts to give each other!!!

So, keep an eye on either of these web pages because who is coming and when will be posted there.
